

POTHOLE SEASON IS COMING!

Stock up on the most **TRUSTED** Eco-Friendly High Performance Cold Mix Asphalt **TODAY.**

Call: 800.985.9192 or log on to: www.GREENPATCH.com

Introducing the first and only true environmentally friendly cold asphalt - **GreenPatch**.

In a time when the environment has become a leading concern, GreenPatch is the number one choice to meet the escalating demands of consumers to "go green". GreenPatch is a revolutionary breakthrough in the cold asphalt industry that contains none of the petroleum based softeners such as diesel, toluene, kerosene, and naphthalene found in conventional cold asphalt that pose serious threats to human health and the environment. This is all achieved without sacrificing quality or increasing cost which makes GreenPatch a direct replacement for the conventional cold asphalt that is being used on our roads today.

Call us for a distributor near you at: 800-985-9192 or log on to our website at: www.GREENPATCH.com.

More and more DOT street and road repair contractors are switching to GREENPATCH cold mix pavement repair solution... NATIONWIDE!

Once you experience the many benefits of this high performance, cost-effective cold mix asphalt, you'll understand why utility companies, road repair contractors, public works departments and homeowners are all switching to GREENPATCH®-- the first truly environmentally safe cold asphalt mix.

GreenPatch is available in different forms to meet your needs. Whether you are repairing part of your driveway or part of a highway we can help.

www.GREENPATCH.com

EASY on the environment and EASY to use!

Sweep any loose debris from area to be repaired.

Pour GreenPatch directly from the bag into the hole. There are no additional steps or materials needed.

Add GreenPatch up to a 2" depth and compact to create a solid base. Reapply in 2" increments until repair area is filled. You may now open to traffic immediately.

- ✓ Eco friendly
- ✓ Cost-effective
- ✓ High performance
- ✓ Easy to use
